

POAB Assisting Group

Dear Patient

POAB Assisting Group provides a billing service for many Assistant Doctors in Perth.

Operations have an Assistant Doctor present as requested by your Surgeon.

***Our Assistant Doctors are NO GAP providers** which means in most operations the Assistant Doctor's fee is sent direct to your Private Health Fund and Medicare to be paid in full.*

In some operations the Assistant Doctor's fee is not covered by Medicare or your Private Health Fund. In that instance you may incur a gap (out of pocket) expense of a \$120. (Please refer to your surgeons rooms to see if your surgical item numbers are covered by Medicare and your health fund).

If you are an uninsured patient you will receive an account for the operation. We would prefer that this fee is settled prior to your operation.

Should you have any queries please do not hesitate to contact me.

Regards

Linda Cipriani
